

## Testimonial GP Dentist Placing Implants

Good Morning Dr. Niznick,

Thank you for welcoming me to your presentation last night in Tampa. I am not a "letter" writer; however, I am compelled to give you feedback. I had already done the research on your implants as well as your accomplishments. I was equally impressed with both. Although I had a complete inventory of Nobel Biocare Replace Select implants, prosthetic and surgical instruments, I immediately purchased your implants as well as a complete surgery kit. In the past two months, I have placed 28 ScrewPlant implants. I am thoroughly pleased with the outstanding quality and reasonable cost. Even though I am 100% satisfied and committed to your system, I attended your meeting primarily to experience your presentation in person.

My expectations were exceeded and I left inspired. Within 1 year of graduating from dental school in 1995, I had one of the largest/productive practices in the Florida panhandle by offering quality dental services at fair and reasonable fees which is congruent with Implant Direct's concept and philosophy. Thanks to your company and implants, our practice will be able to provide quality implant services at fair and reasonable fees. I am certain that we will quickly catapult into the largest implant practice in the panhandle as well.

Thank you.

Respectfully,
