

ScrewIndirect™ Titanium Temporary Coping Now Even More Versatile

ScrewIndirect's Titanium Temporary Coping (4000-69) now includes an additional fixation screw that enables the usage of an implant extender for greater treatment flexibility.

Effective immediately, this packaging change allows you to easily adapt the Teeth-in-1Day™ protocol as needed based upon the amount of soft tissue present.

You now have two treatment options with this single coping kit!

As depicted above, the additional shorter screw (1000-05) is required to engage correctly with the internal threading of the ScrewIndirect extender. [Learn More](#)

See how ScrewIndirect now compares with NobelReplace™ system¹ on a 5-unit case:

Code	Implant Direct Item	Price	Code	Nobel Biocare Item	Price	Savings
403710	ScrewIndirect Implants	\$750	32217	NobelReplace Implants	\$1950	\$1200 62%
INCL	Cover Screw	\$ -	29434	Cover Screw	\$245	\$245 100%
INCL	Extenders	\$ -	29201	Extender Abutment	\$950	\$950 100%
INCL	Carrier/Transfer	\$ -	29093	Impression Coping	\$125	\$125 100%
INCL	Comfort Cap	\$ -	31145	Comfort Cap	\$70	\$70 100%
4000-69	Titanium Temporary Coping	\$175	29046	Titanium Temporary Coping	\$275	\$100 36%
		\$925			\$3615	\$2690 74%

Take advantage of this increased versatility and value now!
